

Atmosfersko modeliranje u zaštiti okoliša za potrebe istraživanja i krajnjeg korisnika

Goran Gašparac
ggasparac@gekom.hr

Gekom - Geofizikalno i ekološko modeliranje d.o.o., Zagreb
www.gekom.hr
www.bora.gekom.hr

Agenda

- Gekom d.o.o.
- Numerički meteorološki model WRF
- Modeli kvalitete zraka, primjena
- Numeričko modeliranje razina buke

Gekom – tko smo?

- Osnovani 2007.
- Poduzeće čije se usluge baziraju na specijalističkim znanjima iz geofizike, ekologije, matematike i informatike
- Interdisciplinarni tim od 10 ljudi:
 - geofizičari (meteorolozi, oceanografi)
 - matematičari (geomatika, promet)
 - informatičari
 - ekolozi
- Razvoj i primjena numeričkih (simulacijskih, predikcijskih) modela
 - potrebe primijenjene ekologije
 - organizacije prostora (zaštite prirode i okoliša, prostorno planiranje)
 - upravljanja prirodnim resursima i infrastrukturama

Gekom – čime se bavimo?

Usluge geofizikalnog,
ekološkog i numeričkog
modeliranja:

Atmosferski procesi

Hidrodinamički procesi

Hidrološki procesi

Procjena potencijala
obnovljivih izvora energije

Disperzija polutanata

Procjena razina buke

Modeliranje prometa

Biološko/ekološki procesi

Procjena okolišnog rizika

Prometni tokovi

..

Područja
primjene

Zaštita okoliša i
prirode

Obnovljivi
izvori energije

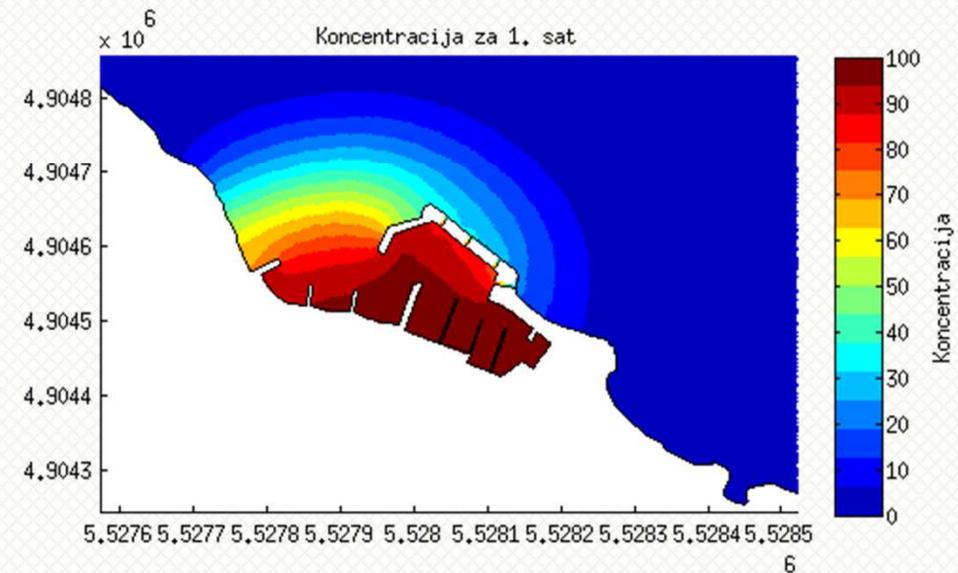

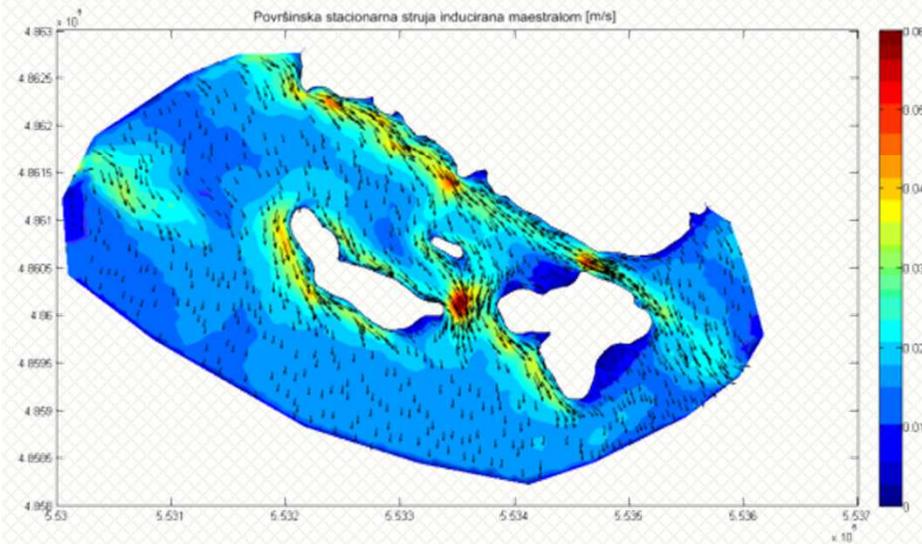

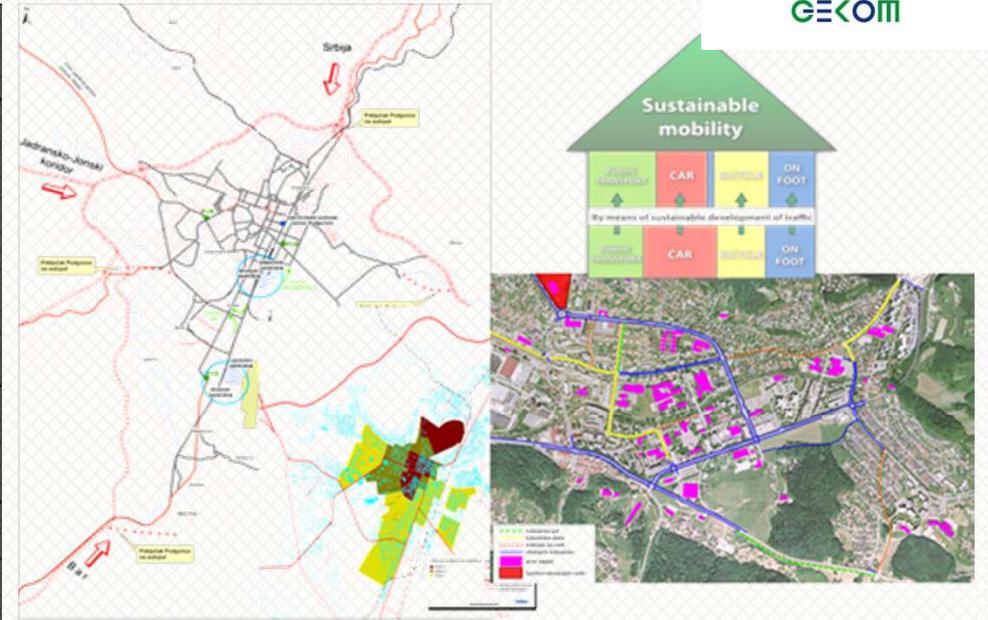

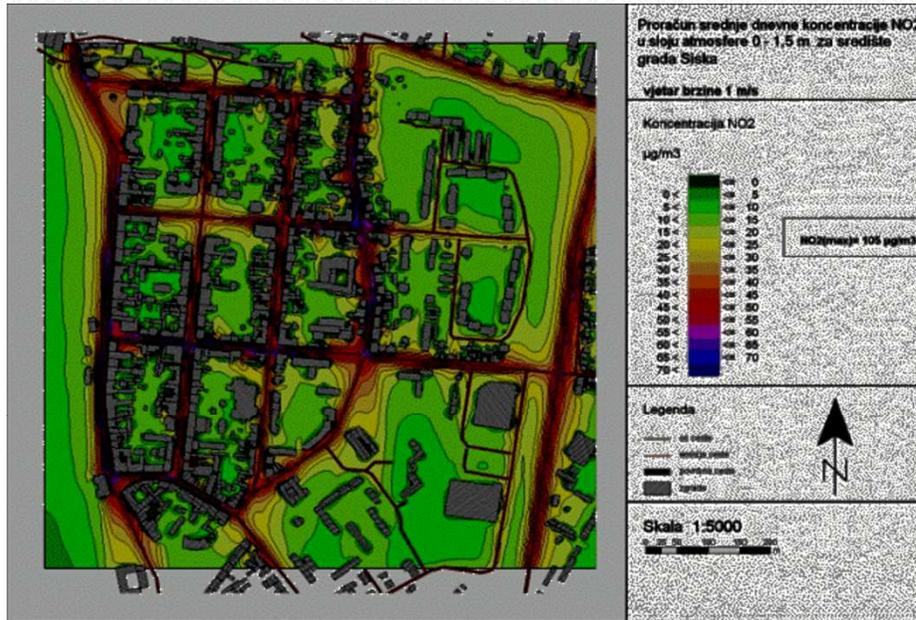

Upravljanje
prirodnim
resursima

Optimiranje
građevinskih i
infrastrukturnih
objekata

Promet i
prostor

Istraživanje i razvoj

Gekom – čime se bavimo?

Numerički meteorološki model

WRF (*Weather Research and Forecasting*)

- Mezoskalni meteorološki model
 - Regionalno
 - Lokalno
- Znanstveno – stručna primjena
- Združivanje sa drugim modelima (modeli kvalitete zraka)

NAUTIČKA PROGNOZA ZA JADRAN

Računalna prognoza vremena, valova, struja i ostalih parametara mora za nautičare i sve one koje zanima prognoza za Jadran - **rezultati vlastito pokretanih modela!**

saznaj ➔ više

Prognoza vremena za JADRAN

Prognozički model WRF-ARW visoke prostorne razlučivosti za cijeli Jadran i pojedinačne regije - meteo karte.

- > Vjetar
- > Temperatura zraka
- > Refleksivnost
- > Naoblaka niska
- > Naoblaka srednja
- > Naoblaka visoka
- > Oborina
- > Relativna vlaga
- > MCAPE

Karte mora

Karte oceanografskih parametara na visokoj prostornoj razlučivosti za Jadran i pojedinačne regije

- > Značajna visina vala
- > Period vala
- > Duljina vala
- > Površinske struje
- > Struje na 20m dubine
- > Anomalija razine
- > Temperatura mora
- > Salinitet

Prognoza za odabranu lokaciju

Šestodnevne (svaka 3 sata) ili trodnevne (satne) prognoze meteoroloških i oceanografskih parametara za odabranu lokaciju.

- > Brzina i smjer vjetra
- > Valni parametri
- > Temperatura zraka
- > Tlak zraka
- > Naoblaka i oborina
- > Morske struje
- > Temperatura mora
- > Razina mora

Obavijesti o nadogradnjama

Ukoliko želite primati obavijesti o nadogradnjama sustava prijavite se na našu kontakt listu.

Modeli kvalitete zraka

Rješavanje jednažbi:

- Gauss
- Lagrangian
- Euler
 - CFD

Model gustoće plina

Box model

...

Način rješavanja procesa:

- Disperzijski modeli
- Fotokemijski modeli
- Receptorski modeli

Izlazna polja

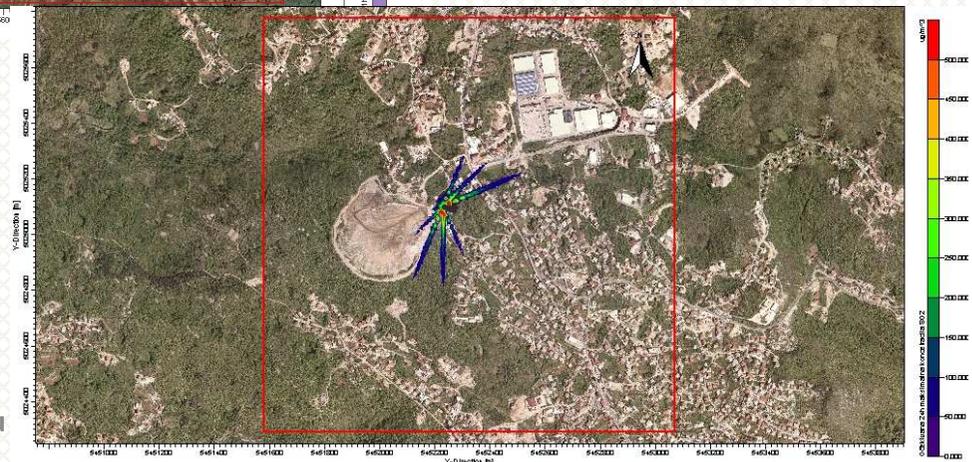

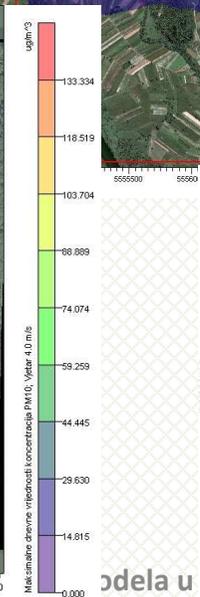

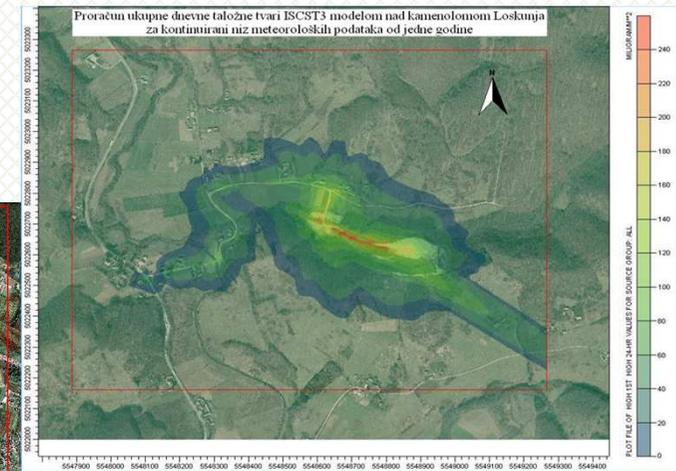

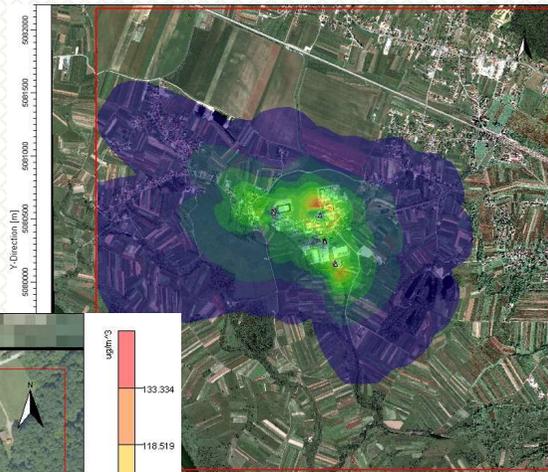

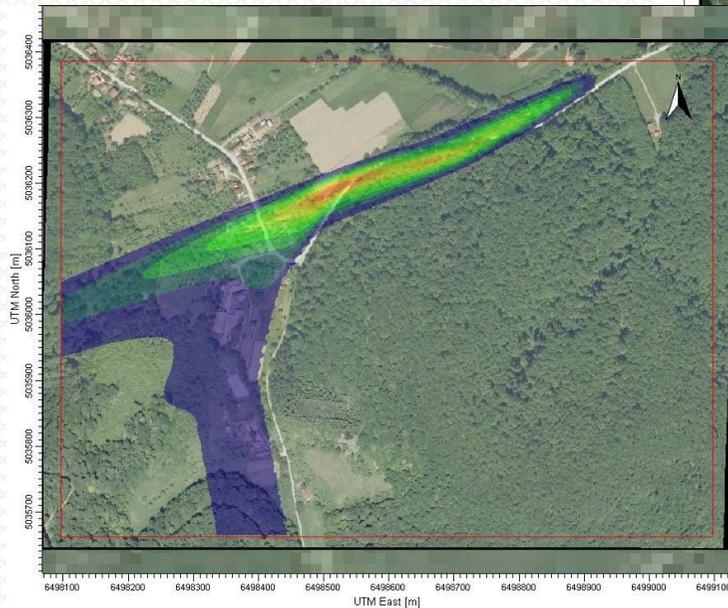

- Procjena vrijednosti koncentracija (maks. koncentracije)
- Izračun vrijednosti koncentracija

Modeli kvalitete zraka

Primjena

- Studije utjecaj na okoliš (procjene utjecaja na okoliš)
AERMOD, ISCST3, MLuS, ...

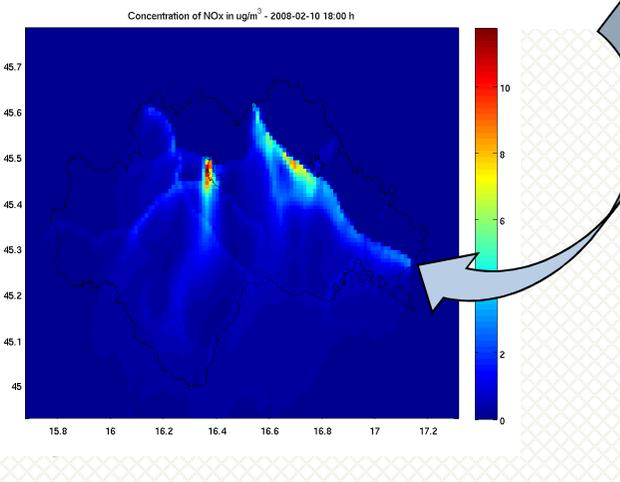

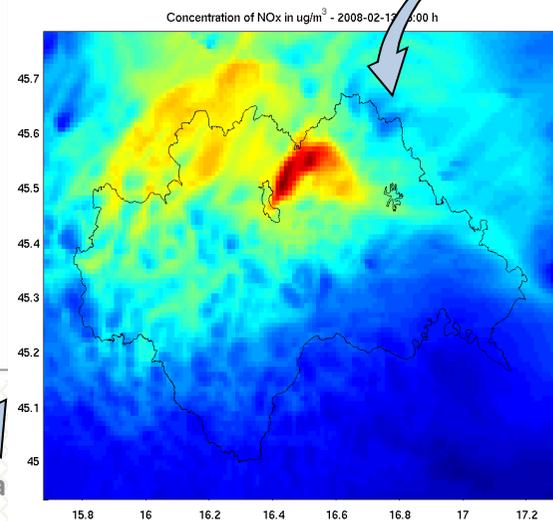

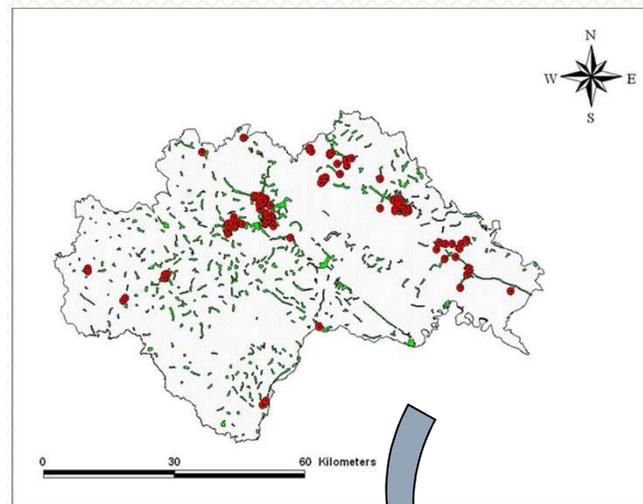

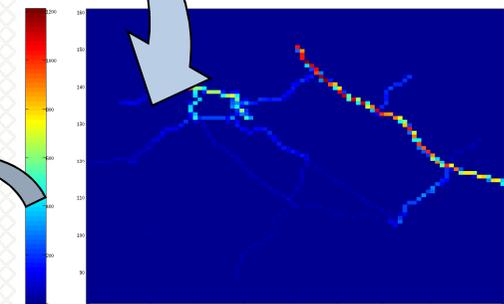

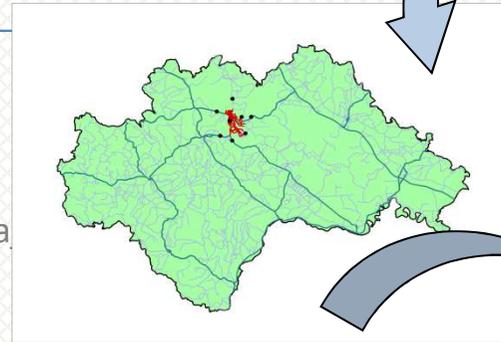

Modeli kvalitete zraka

Primjena

- Studije utjecaj na okoliš (procjene utjecaja na okoliš)
AERMOD, ISCST3, MLuS
- **Stručne studije (Slučaj grada Siska i Sisačko-moslavačke županije)**
WRF – CAMx model

Modeli kvalitete zraka

Primjena

- Studije utjecaj na okoliš (procjene utjecaja na okoliš)
AERMOD, ISCST3, MLuS
- Stručne studije (Slučaj grada Siska i Sisačko-moslavačke županije)
WRF – CAMx model
- **Znanstveno - stručni projekti (EUREKA 3266!, EUREKA 5460!)**
Online informacijski sustav za upravljanje kvalitetom zraka i izvješćivanje javnosti (*Web Based Air Quality Assessment and Management Information System - for regional and local urban and industrial air quality management*)
WRF, MM5, CAMx, AERMOD (CAMQ, WRF Chem, ...)

Numeričko modeliranje buke

Iznimno važan dio Studije utjecaja na okoliš prilikom planiranja i projektiranja novih ili rekonstrukcije postojećih zahvata u okolišu

Soundplan 7.1.

- Prometna infrastruktura
ceste, željezničke pruge, ...
- Industrijski izvori
*vjetroelektrane, plinovodi,
kamenolomi...*

Primjena atmosferskih modela u zaštiti okoliša i ljudi, 27.11.2014.

Numeričko modeliranje buke

Iznimno važan dio Studije utjecaja na okoliš prilikom planiranja i projektiranja novih ili rekonstrukcije postojećih zahvata u okolišu

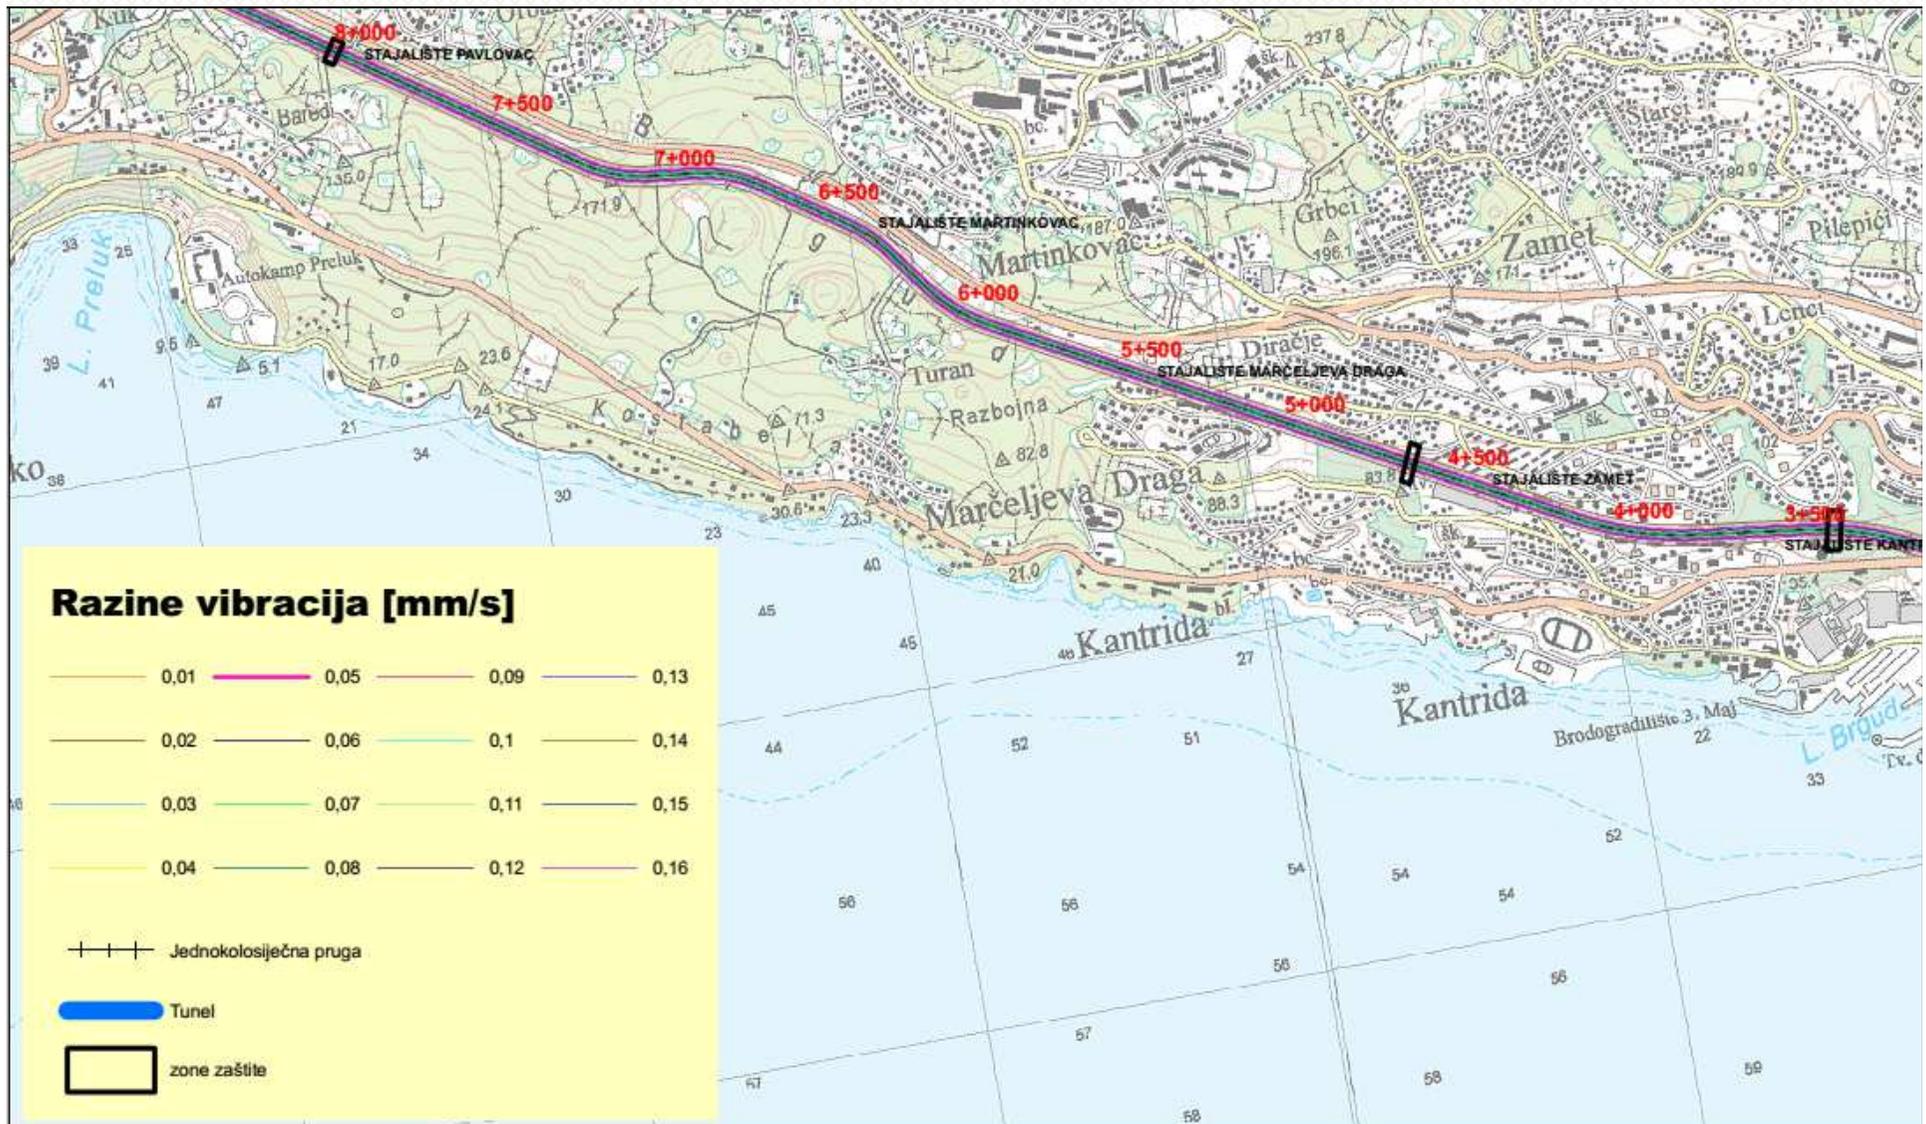

Soundplan 7.1.

- **Prometna infrastruktura**
ceste, željezničke pruge, ...
- **Industrijski izvori**
*vjetroelektrane, plinovodi,
kamenolomi...*

Vibra 1. & 2.

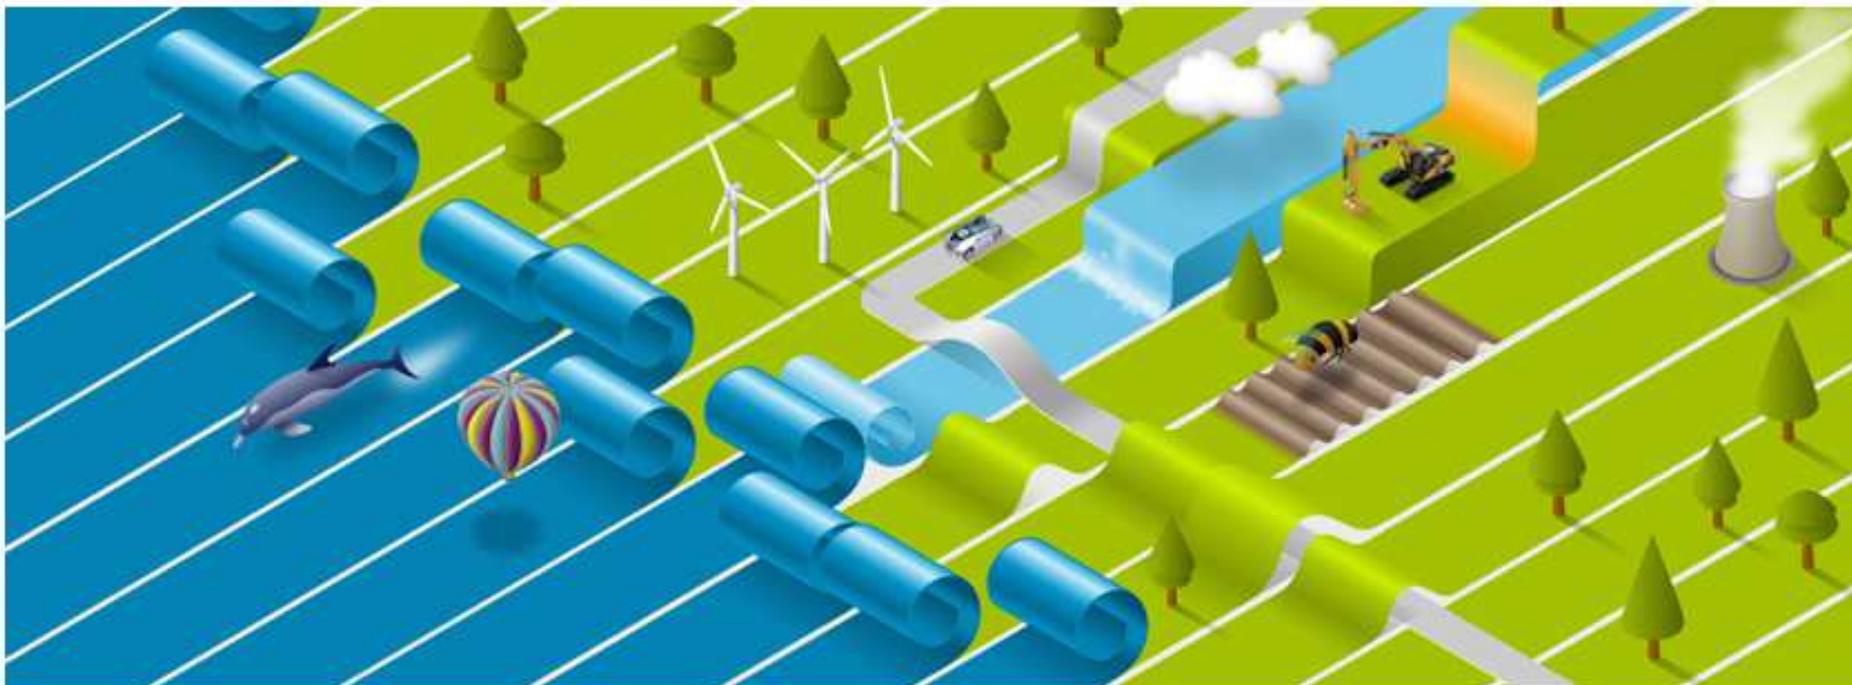

- Vibracije i niskofrekventna buka

Numeričko modeliranje buke

Sažetak

- Numeričko modeliranje
 - WRF
 - AERMOD, ISCST3, MluS, *screening modeli*
 - Soundplan, Vibra 1. & 2.
- Modelski sustav:
 - WRF – CAMx
 - WRF – CMAQ
 - WRF Chem
- Primjena – stručne i znanstvene studije

Hvala na pažnji!
